

# IDIGTRIO

THERE'S NO FORMULA FOR  
BEING A SCIENTIST

We are not  
your average  
scientists!

## General Classification

KINGDOM: ANIMALIA  
PHYLUM: CHORDATA  
CLASS: ACTINOPTERYGII  
ORDER: PERCIFORMES  
FAMILY: PERCIDAE

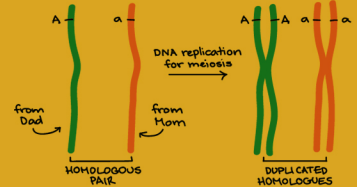

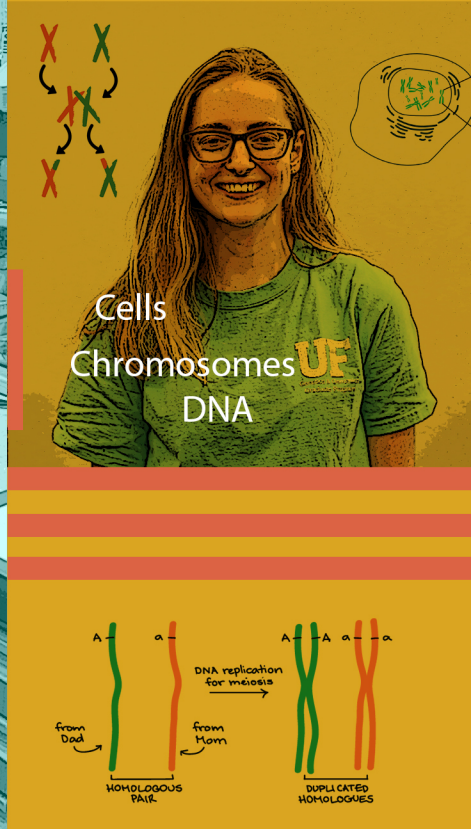

# ABOUT US

College students from first-generation, low-income or minority backgrounds are 16 times less likely than other students to do well in STEM courses.

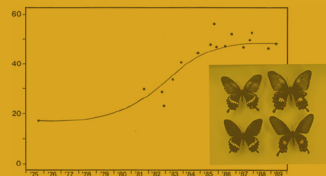

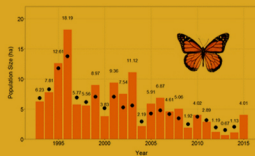

iDigBio, the Office of Academic Support and TRIO Student Support Services Program at the University of Florida wants that to change. And we are giving students a chance to explore science opportunities at the iDigTRIO Biological Sciences Career Conference.

# Our Goal

The goal for the iDigTRIO Biological Sciences Career Conference is to expose minority, first generation, limited income students and students with disabilities to career and professional opportunities in the Biological Sciences.

# The Event

The Conference is a two-day experience for participants in which they engage in a career shadowing opportunity, resource fair, and a full -day workshop. Students from across the nation are welcomed to attend this **FREE** event.

## **CONFERENCE DATES:**

**FRIDAY, FEB 21, 2020**

**SATURDAY, FEB 22, 2020**
