## Remarkable Goatsbeard *Tragopogon mirus*

### Remarkable Goatsbeard Facts

- Native to Washington and Idaho.
- Seeds dispersed by wind.
- *T. mirus* is one of the few polyploids whose time of origin is known with a high degree of certainty. *T. mirus* originated from the hybridization of the European species *T. dubius* and *T. porrifolius*. *T. mirus* is fully fertile and is recognized as an established species.
