

Subject: Adobe Connect - Chat Transcript from Small Collections Network

From: <gnelson@bio.fsu.edu>

Date: 4/21/2014 4:03 PM

To: <gnelson@bio.fsu.edu>

Christina Byrd:I'm here. No mic

bob capers:i'm here but don't have a mic

Kaleigh Pare:I'm here too. No mic.

Lena Hernandez:I'm here no mic.

Gil Nelson:<http://scnet.acis.ufl.edu/content/building-small-collections-network-model-ecm>

Christy Bills:Here as well!

Christina Byrd:november 16-19

Christy Bills:<http://ecmweb.org/meeting2014>

Gil Nelson:<https://www.idigbio.org/content/idigbio-initiatives-small-natural-history-collections>

trish weaver:Another group to consider is small collections within an institution that also houses larger collections. For example, we have a small terrestrial invertebrate collection at NCSM but they get no attention because the larger collections are the ones the institution supports as far as grant applications goes etc..

Deb Paul:Is everyone here on the mailing list?

Deb Paul:idigbio news letter -- section?

Rita Isabel:I'm on the mailing list Deb

Christy Bills:on the mailing list

Christy Bills:Trish, I think that totally qualifies as a "small collection" and has the same needs as a small collection not housed with a larger one.

Christina Byrd:i think i'm on the list serv. but I've never received a newsletter from iDigBio. is it delivered via SPNHC mailing list?

Deb Paul:<https://www.idigbio.org/newsletter-subscribe>

trish weaver:That's exactly what's happening here.

Deb Paul:Please do sign up for our iDigBio newsletter too -- and do submit ideas for topics you'd like us to cover!

Deb Paul:<https://www.idigbio.org/newsletter-subscribe>

Teresa Mayfield:This was a great meeting and very informative. Thank you!

Rita Isabel:Thank you all

Kevin Love:You can find todays recording here: <http://idigbio.adobeconnect.com/p8cn1dad781/>

Christina Byrd:thanks everyone

Amy:Thank you !
