IDIGBIO – OVERVIEW, RESEARCH, & EDUCATIONAL OPPORTUNITIES

Dr. Larry Page, iDigBio Project Director
Dr. Pamela Soltis, iDigBio PI – Research
Dr. Bruce MacFadden, iDigBio PI – Education & Outreach

Integrated Digitized Biocollections (iDigBio) is the central resource for the Advancing Digitization of Biodiversity Collections (ADBC) program funded by the National Science Foundation (NSF). Through ADBC, data and images for millions of biological specimens are being made available in electronic format for the research community, government agencies, students, educators, and the general public.

This seminar will provide an opportunity for you to learn what the iDigBio project is all about and what research and educational opportunities are available.

November 5, 2013  3:30 PM
Bartram Hall 211
