The Key to the Cabinets: Building and sustaining a research database for a global biodiversity hotspot

**INCLUSION OF BOTANY-NAIVE
UNDERGRADUATES IN DIGITIZATION
WORKFLOWS: IT IS POSSIBLE!**

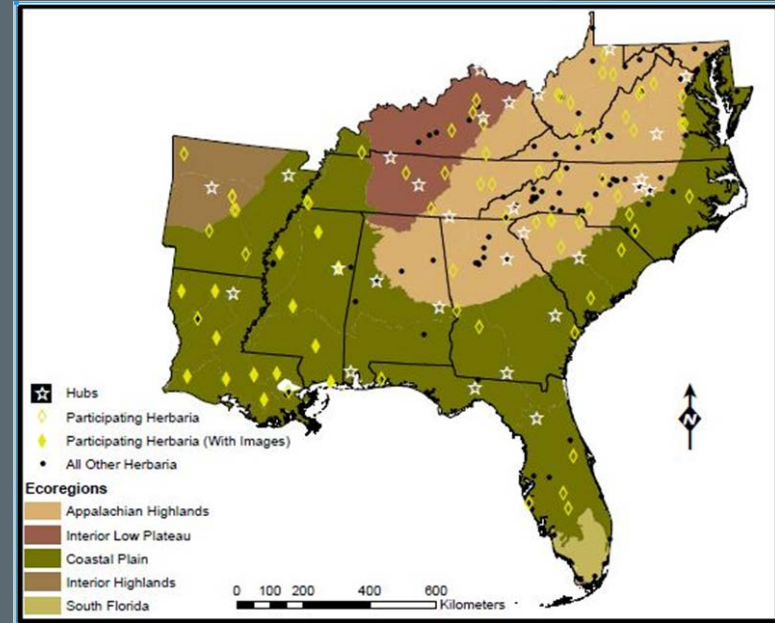

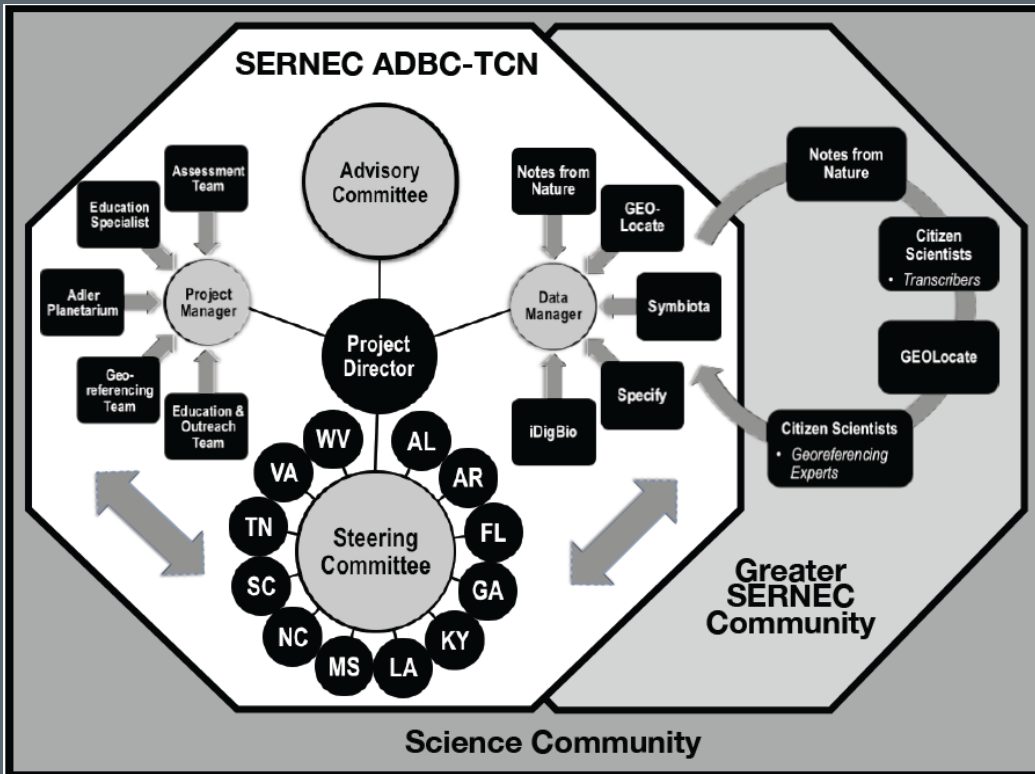

Our Reality

- Increasingly data-rich environment
- Increasingly time-constrained
- Increasing financial need of students

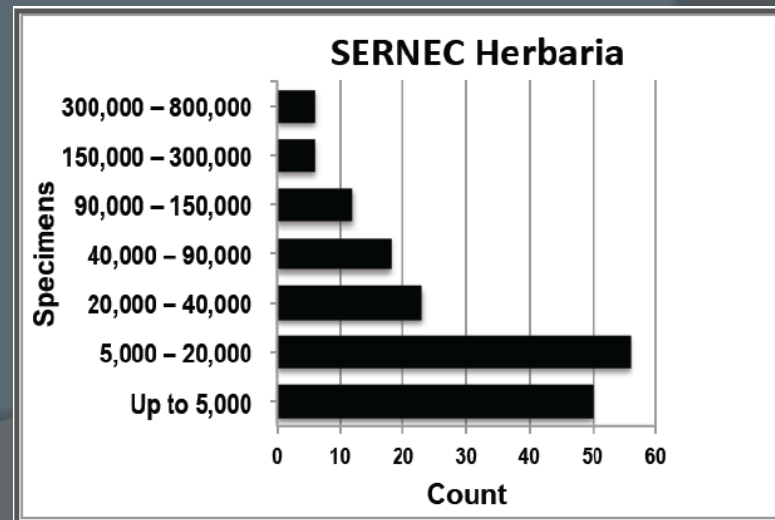

- How do we make students active participants/citizen scientists?
 - Small projects for academic credit
 - Independent Study, Capstone Study
 - Partner with Federal Work Study (FWS)

The Key to the Cabinets ADBC-TCN

- ~4 million specimens
- Image, transcribe & georeference

Data Management Workflow

Specimen Image Capture
"Herbarium Digitarium"

4,700,000 SPECIMENS
100+ INSTITUTIONS
12 STATES

Archival Storage

Web Derivatives

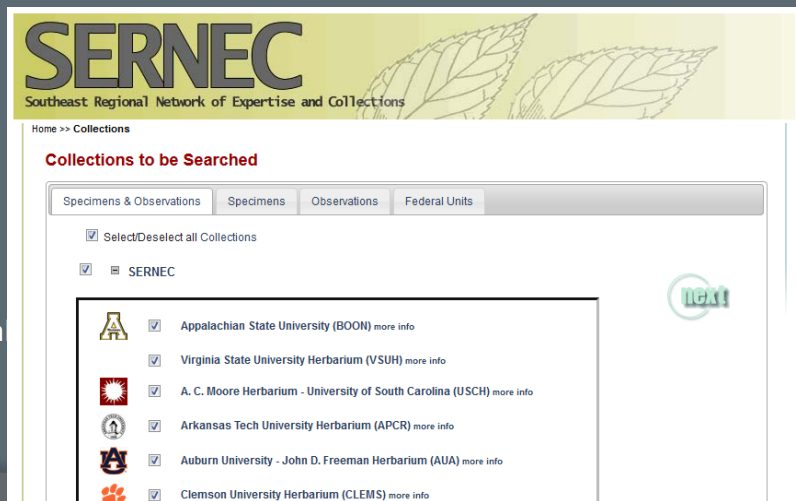

Citizen Scientists

Metadata to Portal

Batch Georeferenced Data to Portal

Repatriation of Metadata to Local Institution

Marshall University Herbarium (MUHW)

- 50,000+ vascular plant specimens
 - Mostly from WV
- Personnel 2014-2015:
 - 1 curator
 - No curation reassigned time
 - 8 Federal Work Study students
 - 1 Master's independent study
 - 1 undergraduate Capstone/senior project
 - 2 paid students on ADBC grant
 - 1 MS student and 1 FWS student

Challenges with students

- ⦿ Lack of botanical/taxonomic knowledge
 - Orientation, how-to docs
- ⦿ Continuity/ predictability
 - Keys & independence
- ⦿ Boredom
 - Including in 'actual' research activities
 - Prep for digitization
 - Freedom

What We've Learned

⦿ Living in Chaos

- Much troubleshooting in Spring 2015!
- Regularly changing protocols
- There is no avoiding this if you want to move!

⦿ Organization

- Peer training works pretty well
- Combination of specialists and generalists

⦿ Human behavior

- Students are precise while being watched
- Students need regular refresher training
- Students are predictably good leaders (Kristen)
- Students unexpectedly emerge as leaders (Katrina & Ashley)
- Some students just don't work out well

What We've Accomplished

- Since Feb. 1:
 - 8413 specimens barcoded, imaged, processed and shared to iPlant
- Stable protocols
- Trained (returning!) students

What's next

- ⦿ A third cohort of FWS in Fall 2015?
 - Max. number??
 - Level of policing/enforcement?
- ⦿ Continued revision of training docs and protocols
 - Student feedback
 - Student peer-training
- ⦿ Image the early dicots and rosids in Fall 2015

Acknowledgments

- Katrina Conley
- Ashley Knight
- Kristen Hammond
