*As stated in proposals (N=10), Thanks to Joanna McCaffrey for help

Libby Ellwood

Florida State University with Austin Mast

eellwood@bio.fsu.edu

- Engage the public in digitizing biodiversity research collections
- Best practice and standards documents
- Interoperability of the iDigBio cloud, public participation tools and management systems

Discussion Questions

- What successful E&O activities has your project accomplished?
- Has your project struggled with certain E&O activities?
- Are there resources that members of this group are aware of that might be helpful to other projects?
- Future E&O plans and goals.
- **What would be useful to accomplish at the January workshop?**
