

Summit VI – Day 1 Wrap-Up

November 1-3, 2016

Chattanooga, Tennessee

A few things we learned today...

- Amazing amount of activity!!
- We all have a lot to learn from one another
- Planning and flexibility are essential
- Project managers and project coordinators make your life much easier
- Interconnection of various data sources provides an avenue to future data use
- Discoverability is key
- Sustainability applies us as a community

Applying what we've learned...

- This afternoon, we have time for open meetings
- Tomorrow, we'll begin with some inspiration and follow with open discussion and discussion groups
- Let's think about ADBC as a whole:
 - Where do we want to be? What are our goals?
How do we get there?
