

Stefan:Gil, I can see and hear you but can't activate my webcam

Gil Nelson:gil@gilnelson.com

Matt Buffington:Hi all, I am here watching, but I am not sure how to activate my camera.

Matt Buffington:the sound is particularly noisy!

Chris 2:I'm having the same problem Stefan and Matt are having. I can hear, but can't seem to connect my microphone or webcam (I just installed the AC update, so maybe that's the problem). -Chris D.

Chris:we are not using webcam so we can see the presentation

Nicole Fisher:i had problems logging in - let the update install & try a different browser if still can't log in

Chris 2:OK. It's working now. It just took about 10 minutes.

Andy Deans:will this ppt be posted somewhere?

Matt Buffington:Got it all working now!

Matt Buffington:I can see Chris all of a sudden

Matt Buffington:Yeah, I would like to see this ppt, too. Its very pixelated on my end.

Chris:Me too

Geoff Thompson:That's the bad quality via webcam. He couldn't get it to share his screen.

Gil Nelson:I will post the power point on the wiki following the meeting

bernhard schurian:<http://360grad.biodiv.naturkundemuseum-berlin.de/http://didaktik.physik.fu-berlin.de/impal/Naturkunde/IBE/biene/https://plus.google.com/events/c5569losvskrv2nu606ltof8odohttp://www.flickr.com/photos/usgsbiml/with/9446047311/>

Stefan:Link doesn't work

Matt Buffington:yeah, doesn't work

bernhard schurian:<http://360grad.biodiv.naturkundemuseum-berlin.de/bernhard schurian:http://didaktik.physik.fu-berlin.de/impal/Naturkunde/IBE/biene/>

bernhard

schurian:<https://plus.google.com/events/c5569losvskrv2nu606ltof8odo>

Gil Nelson:https://www.idigbio.org/wiki/images/8/82/WDD_2014.pdf

Gil Nelson:Previous link is to the pdf of the powerpoint

Matt Buffington:thanks Gil

Geoff Thompson:What about renting a medium format camera?

Geoff Thompson:<http://www.hasselbladusa.com/about-hasselblad/rental-locator.aspx>

Andy Deans:matt - do you have examples of those images somewhere?

Andy Deans:why not use the gigapan site?

Andy Deans:for hosting

Matt Buffington:Yeah, we are. Here is a link:
<http://www.gigapan.com/gigapans/151019>

Matt Buffington:See if that works

Chris 2:InvertNet has the infrastructure to host gigapan images, so we should talk about this. Our TCN isn't funded to host federal gov't collections so we would just need some additional support from USNM to do this.

Chris:can you turn up your microphone volume Vlad? hard to hear you

Gil Nelson:chris, try your speaker volume at the top of the screen.

Gil Nelson:That sometimes helps.

Chris:did but then everyone is super loud

Gil Nelson:Yes, variable transmission.

Gil Nelson:Betterl, Chris?

Chris:yes

Chris:thanks

Geoff Thompson: The King stag beetle photo I took when we first got the Hasselblad is presented in Open Zoom if I remember rightly.

Geoff
