# Supporting research pipelines through the creation of stratigraphic and taxonomic concordances

Erica Clites<sup>1</sup>, Elizabeth Nesbitt<sup>2</sup>, Peter Kloess<sup>1,3</sup>, Austin Hendy<sup>4</sup> <sup>1</sup>University of California Museum of Paleontology <sup>2</sup>Burke Museum, University of Washington <sup>3</sup>University of California, Berkeley Dept. of Integrative Biology <sup>4</sup>Los Angeles County Museum of Natural History

### **Collaborator Map**

**UCMP PIs:** Charles Marshall (Lead PI, UCMP Director), Seth Finnegan, Pat Holroyd, Lisa White **Collaborating PIs**: Pat Druckenmiller (UAM), Liz Nesbitt (Burke), Edward Davis (UO), Peter Roopnarine (CAS), Jann Vendetti (LACM), Greg Dietl (PRI)

Unfunded collaborators: Cooper Center (Nicole Bonuso), Smithsonian NMNH (Kathy Hollis)

### EPICC TCN

- Eastern Pacific Invertebrate Communities of the Cenozoic
- NSF funded initiative to catalog 1.6 million marine invertebrates over 66 million years of Earth's history
- Currently 665k digitized specimens, 21k photographed specimens, 14k georeferenced localities

Loc. A7586 / UCMP 127750 Sessilia: Balanidae Balanus amphitrite inexpectatus cf. species Elem: shell with barnacles ID by Pliocene California Fm: San Joaquin Kings Co. Collector: FldNo: UNIV. of CA MUSEUM of PALEONTOLOGY

### Existing taxonomic standards

- World Register of Marine Species focused on recent specimens
- Paleobiology Database incomplete

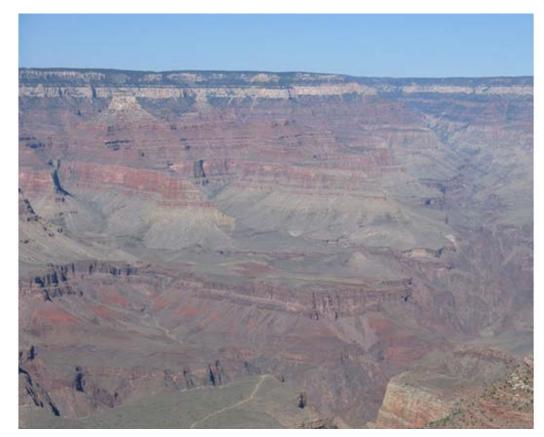

### EPICC Taxonomic concordance

- 5300+ entries to date
- Based on taxonomic authority papers
- Started with Recent and Quaternary mollusks (Austin Hendy, LACM); provides robust framework for introduction of taxonomic names from older fossil literature
- Collaboration with taxonomic experts to add additional groups (i.e., Decapoda, Echinodermata, Patellogastropoda) and reconcile outdated taxonomic concepts

### Marking occurrences by stratigraphy

• Stratigraphy is how paleontologists represent time and ecology of an animal's occurrence

0-101. UNITED STATES GEOLOGICAL SURVEY. SURVEY OF THE San Fringdes footbells DATE In charge. NAME 18572 Wheeler Ridge, Calif No. 1 8-24 Name: Determined: Oct. 8, 1824 Dear. Dr. Clar 15 ! Have recently collected some fassil from either San Forenzo or Vaquesos an so highly negotand that I know from which Note Book: 6-1907 I wonder if you formation they came . Page would kindly look them over for we and When there send me a least of the ofenes logether with as to whether they belong to UCMP Loc IP6518 Field No. F8-24 your opener Vagueros or Dan Forenzo. I bhall be glad Other Loc No. USGS Cenozoic 18572 GEOLOGICAL SURVEY to make it night with you for your trouble. San Empidie Fath TG San Emigdio foothills Oligocene, Miocene California for them some time before Ehrotman. Fm: Pleito Kern Co. Loc. No. 18572 Collector & Date H.W. Hoots 1924/10/07 Oliopcenz - Lowen Mixia thanks Divy much. Pleito Jaz. Pleito con H.W. Hosts with very best regards Surcevely H. W. Wools

### Stratigraphic concordances

- Updating outdated stratigraphic units
- Based on: USGS geologic lexicon, unpublished USGS geologic names committee archives, Macrostrat, with updates from recent literature
- Script-ready data tables uploaded to Data Dryad
- Written descriptions of problematic formations

### Stratigraphic concordances

 California (250+ stratigraphic units; Peter Kloess, UC Berkeley/UCMP)

63	Formation	BC		Clapp and Cook (1917)		Oligocene - Miocene	Rupelian-Chattian
64	Hesquiate Formation	BC		Jeletsky (1975)	Carmanah	Oligocene	Rupelian-Chattian
65	Escalente Formation	BC		Bancroft (1837)	Carmanah	Eocene/Oligocene boundary	Bartonain-Priabonaian
66	Metchosin Volcanics	BC	Metchosin Igneous Complex	Clapp (1910)		Paleocene-Eocene	

### Research uses of data

- TCN data served via individual IPT or VertNet IPT to iDigBio, GBIF, etc.
- Ecological and evolutionary response of marine species and communities to major environmental changes such as:
  - Paleocene-Eocene Thermal Maximum
  - Greenhouse-icehouse transitions
  - Opening of Bering Strait, closing of Panama Seaway
  - Contraction of the tropics

### Already available

- Have feedback on our approach or methods?
- Interested in using our data?
