G-E YELLOW BULBS

"BUG-LIGHT"
for outdoor use

GENE

Scientific studies have repeatedly shown that electronic mosquito repellents do not prevent host seeking mosquitoes from biting. In most cases, the claims made by distribution border on fraud. Mated female mosquitoes do not feed from amorous males, and mosquitoes do not vacate an area hunted by dragonflies. Electronic mosquito repellents do little in the way of reducing mosquito annoyance.

"Bug zappers," which use lights to lure insects into a device that electrocutes them, are ineffective in most instances. Nevertheless, the positioning of outdoor lights can be important. Placing outdoor lights several feet away from doors reduces the entry of insects into homes and apartments when insects are active around the lights.

MODEL UV IS

STINGER

ELECTRONIC BUG KILLER

EFFECTIVE UP TO 1/2 ACRE!

New!

PHEROMONE TRAPS

Pantry Patrol

Traps Beetles and Moths!

- ✓ No Poisons
- ✓ Contains 2 Traps
- ✓ Ready to Use
- ✓ Lasts for Months

Removes food pests from your pantry, kitchen, home and business

Guaranteed.

Enoz

OLD FASHIONED

Moth Balls

KILLS CLOTHES MOTHS EGGS and LARVAE

ACTIVE INGREDIENT: NAPHTHALENE 100%

Moth balls are made from naphthalene, a hydrocarbon derived from coal that easily sublimates, or exudes gas acting as a fumigant, resulting in death for the moth.

TERRO

ANT KILLER

FOR CONTROL OF SWEET EATING ANTS

Active Ingredient: Sodium Arsenate 2.27%

Inert Ingredients: 97.73%

Total: 100.00%

*Total Arsenic (as trioxide) 0.91%

Arsenic in water soluble form (as trioxide) 0.91%

KEEP OUT OF REACH OF CHILDREN

WARNING:
